

Carbon Reduction Plan

September 2022 | V2.0

Supplier Name: Reds10

Publication Date: 13th September 2022

Commitment to achieving Net Zero

Reds10 is committed to achieving Net Zero emissions by 2030.

Baseline Emissions Footprint

Baseline emissions are a record of the greenhouse gases that have been produced in the past and were produced prior to the introduction of any strategies to reduce emissions. Baseline emissions are the reference point against which emissions reduction can be measured.

Baseline Year: 2020/2021	
Additional Details relating to the Baseline Emissions calculations: No prior emissions reporting	
Baseline year emissions	
Emissions	Total (tCO₂e)
Scope 1	186.3
Scope 2	68.3
Scope 3 (included Sources)	1069.79
Total Emissions	1324.39

Current Emissions Reporting

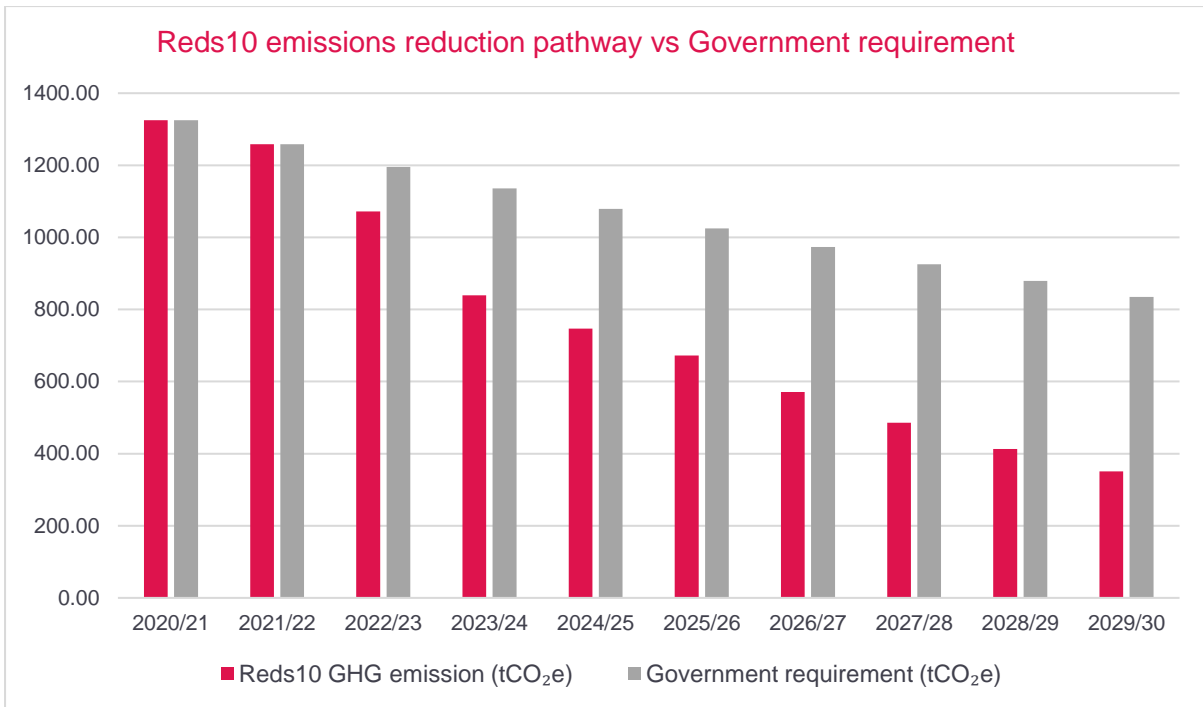

Not applicable

Emissions reduction targets

In order to continue our progress to achieving Net Zero, we have adopted the following carbon reduction targets:

We project that our carbon emissions will decrease over the next five years to **747.54 tCO₂e** by **2026**. This is a reduction of **43.6%**.

Our chosen emissions reduction pathway can be seen in the graph below:

Declaration and Sign off

This Carbon Reduction Plan has been completed in accordance with PPN 06/21 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard and uses the appropriate Government emission conversion factors for greenhouse gas company reporting .

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements, and the required subset of company Scope 3 emissions have been reported using an operational footprint approach in-line with BSI PAS2060 standards for declaring carbon neutrality. The published Carbon Reduction Plan meets and exceeds the science-based guidance from the Government for emissions reductions, for moving to net zero.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Matt Bennion, CEO
